

I am appalled by the National Association of Broadcaster's effort to determine what I can or cannot listen to on XM radio by petitioning the FCC with Petition 04-160. I thoroughly support Satellite Radio and am pleased to pay a monthly fee to have it in my home.

I urge you to respect Amendment One by refusing the NAB's request to ignore it. and to reject their desire to decide what my money will or will not buy.

Respectfully,  
Mary Parminter
